About Land Information Memorandums

A Land Information Memorandum (LIM) is a report that is prepared by a territorial authority (in this case, Ōpōtiki District Council) in relation to matters affecting land and buildings on a particular property.

What will be in a LIM?

A LIM will include the following information:

- Private and public drains and easements known to Council.
- Government valuation of the property and rates struck for current year (including water rates where applicable).
- Any special features of the land including potential erosion, falling debris, sinking, slipping, silting or build-up of land, flooding, or likely hazardous pollutants known to Council.
- Council consents, certificates, notices, orders and requisitions affecting the land and any buildings on that land.
- The site and floor plan of any buildings and Code Compliance Certificates (CCC) for building consents on the property file. Any additional building consent information on the property file can be viewed on request at Council. A digital copy of an entire property file supplied on CD or in PDF format via secure email portal is available on request charged for on a per page basis.
- Zoning of the property, a copy of the relevant planning map, and a link to the applicable zoning chapters of the Operative Ōpōtiki District Plan.
- Any information that has been submitted to Council by other statutory organisations or network utility operators relating to the site or general locality.
- Any other information that Council deems relevant.
